What has gone before...

It's not every day that three Viking warriors find themselves imprisoned aboard an alien spaceship...and it's certainly not every day that three Viking warriors trounce their alien kidnapper and come swaggering home in triumph. It was some time before Olaf, Baleog, and Erik's egos deflated, but eventually life returned to normal in their small northern village.

Or nearly so – for after their wild extraterrestrial adventures, the three brothers found themselves discontented with their former calm Viking lives...

Dissatisfied with his job as senior polar bear wrangler, Baleog the Fierce auditioned for the Nordic Gladiators but stomped out in disgust when he was barred from bringing his own weaponry. It was then that Baleog realized his responsibility to pass on his skills to the next generation of Vikings. He formed Baleog’s School of Plunder, with a popular curriculum focusing on Pillaging, Plundering, and Setting Things On Fire. He became famous throughout Scandinavia for a brilliant lecture course entitled Geat-Crushing In Three Easy Steps. (“Step One: Select a Geat. Step Two: Aim high. Step Three: Crush.”) He then went on a tour promoting his book Stalking The Wild Geat and its wildly successful sequel Just What IS A Geat, Anyway!

Olaf the Stout decided to pursue his dream of becoming a sumo wrestler and set off in search of the Land of the Rising Sun. He made it as far as the Land of the Noonish Sun before he turned back – not because the journey was too tough but because he couldn't find lasagna anywhere beyond the Mediterranean. Instead, he returned sheepishly home to his family and devoted himself to instructing his children in the arts of swordsmanship, looting, thundering, and making decent goat cheese. Both of his daughters now attend the Baleog School of Plunder – Olaf is especially proud of his eldest, Gerda, who has achieved the rank of Honorary Valkyrie AND can out eat her dad any day of the week. Olaf has appeared on “Lifestyles Of The Large & Bearded” and is busy working on a Combat Frisbee, although the neighbors insist that the idea will never fly.

Erik the Swift's experiences in outer space left him bored with village life. He ended up with the mystic Order of the Leaping Mountain Goat,
where he finally learned peace, enlightenment, and how to eat a tin can whole. In fact, Erik emptied his mind so thoroughly that he then spent months wandering around dazed and confused, sculpting fjords out of mashed potatoes and believing he was an iguana. He regained his memory after several knocks on the head, all self-inflicted whilst attempting to ram open a can of tuna: "<KANG! KANG!>" "Wait a minute! I'm not an iguana at all!" "<KANG! KANG!>" "Heeey, I'm Erik the Swift!" He swiped a ship and hurried home to the village, where he was warmly greeted by his brothers...especially Olaf, who was thrilled to discover that his own journey had NOT been the most ridiculous one in the history of the village, after all.

Early one fine Thor's-Day morning the three brothers set out together in their ship, the Ragnarok. Baleog wanted to do a little light plundering; Olaf felt like fishing. The argument was settled peacefully when Erik wisely sided with Olaf...that is, after Olaf threatened to pick him up by the braids and throw him overboard. After some good-natured brawling on the foredeck, the trio settled down to enjoy the cold, clear morning, and to wait for the sun to rise so that they could bait the fishing lines without sticking hooks through their fingers in the darkness.

Little do our heroes know that a specter from their past is stalking them high above. No, it isn't the Master of the Order of the Leaping Mountain Goat...it's Tomator, their alien captor of years before! Though their last encounter was only a year ago for Olaf, Baleog, and Erik, to the time-travelling Tomator his stinging defeat at the brothers' hands occurred only last week...and he wants revenge.

Fortunately, for an alien evil genius, Tomator is pretty sloppy. Once again, his ship malfunctions just as the three Norsemen are in his grasp...and this time, the Viking brothers are ready. They've grabbed some of Tomator's high-tech equipment and they know exactly what they have to do to get back to their homes and families: find Tomator and beat the snot out of him!

Will the Vikings find their way home across time and space? Will Erik lead his brothers to safety without bonking himself back into thinking he's an iguana? Will Olaf be reunited with his wife and daughters? Will Baleog ever get a date with Freya, that Valkyrie babe on the "Resume Game" screen! Stay tuned...
CONTROL PAD
Guides the movement of the currently selected character, including climbing ladders. In addition, use the UP/DOWN buttons to make Olaf grow or shrink. Some of the Vikings can also reach up to grab ropes, either to pull themselves up and tightrope-walk across or to climb along hand-over-hand. Press the UP button on the Control Pad when one of the Vikings is standing directly under a rope to grab it. Use the Control Pad to move between inventory items when in inventory mode.

L/R
Cycles through available characters, even in inventory mode.

A
Activates a world item—flip switches, open treasure chests, query help boxes, etc.

B
Primary character function—Eric jumps or swims, Baleog slashes with his sword, Olaf raises or lowers his shield, Fang leaps and clings to walls, Scorch flaps his wings. Tap B twice to activate Erik’s rocket boots. Hold down B while Scorch is in the air to make him glide like a majestic Olaf.
Y
Secondary character function – Eric charges (if already moving forward), Baleog punches or grabs with his bionic arm, Olaf farts (yes, he does!), Fang slashes with his claws, Scorch breathes fire.

X
Use a selected item.

SELECT
Enters or exits the inventory/pause mode. While in this mode, use the Control Pad to move between the available items. Any item which is highlighted when you exit this mode will be available for use by that character by pressing X. To swap an item between characters, select an item, press B, and use the L/R buttons to choose the character to whom you wish to give the item. (Note: Characters must be standing together to perform a swap.)

START
Pauses the game. While paused, the player is given the option to give up on the current level.

Safety Precautions
Use the following suggestions to keep your Super NES Game Pak in good condition:

1. Keep the Game Pak away from heat, cold, water, and direct sunlight. The Vikings have enough to worry about without having to think about the weather.
2. If your Game Pak gets dusty, use a clean, soft cloth to clean it. Do not use any type of chemical to clean the Game Pak. Olaf doesn’t like to use soap anyway.
3. Do not take the Game Pak apart. There is nothing in it that can be used for other purposes. Though cool enough guys, you wouldn’t want the Vikings to get loose from the Game Pak and thrash your house.
4. Always make sure that the power is off before inserting or removing the Game Pak from the Super NES. The Vikings might not be able to go home if the Game Pak is damaged.

Interplay Productions
STARTING THE GAME

After inserting the Lost Vikings 2 game pak, several introductory screens will appear. On the screen will appear several options: NEW GAME, OPTIONS and PASSWORD.

NEW GAME
This will start you on the adventure of a lifetime.

OPTIONS
Here you will be able to select one or two players and turn the music and sound on or off.

PASSWORD
This will let you bypass the levels you have already completed. Use the Controller to enter the appropriate password and a new game will begin at the designated levels (You will receive a new password every time you complete a level so be sure to write them down.) Use the Control Pad to scroll the right letters into place. UP and DOWN will scroll through the alphabet. RIGHT will move you to the next position in the password, while LEFT will move you back one position. Press START and if the password is correct, you will find yourself on that level.

Interplay Productions
HOW TO PLAY

Your goal in Lost Vikings 2 is to guide three Viking brothers - Erik, Baleog, and Olaf - to victory against their alien kidnapper Tomator (AGAIN!) so that they can return home to their Nordic village. Thanks to Tomator's time-travel machine and a mistake on Olaf's part (Baleog and Erik are NEVER going to let him live this one down) the swashbuckling trio have been set adrift in time. The only way for these displaced guys to get home is to find the time-travel machine and hope it takes them home.

All the Vikings begin each level with no items and three life points (represented by the red dots below each character picture at the top of the screen). If a Viking is injured three times, he will begin the long trip to Valhalla. (Hint: you can locate food along the way to restore health points.) Remember: Some actions, such as falling into water and drowning (except for Erik), will result in losing all of that character's health points.

Along the way you will see square "buttons" marked with a question mark. Stand before these buttons and press A to activate them. You will find them very useful since they give clues and hints on how to play the game.

Items are picked up automatically when your character touches them. To use an item, select the item and press X on the Controller (see "Controls"). Some items will only work in certain places (Example: A
key can only be used while standing near the keyhole). Buttons, levers, treasures chests, and anything like that are activated when you stand a character in front of them and press A.

Along the way you will find 2 new friends, Scorch the Dragon and Fang the Werewolf (or was that Wombat?). During parts of the game, these new friends will replace some of the Vikings. Each character has their own special abilities which you will need to learn (see “Good Guys”).

Regardless of which characters you have for any specific level, you will need the abilities of all three available characters to complete a level.

The Vikings depend on each other in other ways too. Keep in mind that they are honor bound to escape together or not at all. You MUST complete the level with all three characters alive. If you lose a character or feel that you’ve backed yourself into a corner, press START to quit the game. Freya the Valkyrie will appear before the Vikings. Press X, Y, or A and she will give you the password for the level you were on. Press B and an option to “Try Again” will appear. Choose YES and Freya will restore all the Vikings back to life. Choose NO and the game will end.

At the beginning of a new level you will receive a password - write this password down! The next time you pop in the game pak and play, you can return to that level by selecting PASSWORD from the main menu and entering the password of the level you desire.
GOOD GUYS

Erik the Swift

NAME: Eric the Swift
AGE: 20
HEIGHT: 5'8"
WEIGHT: 160 lbs

ABILITIES:
Jumping: Push B and Erik will jump in the air. If you keep holding B, Erik will keep jumping for a little bit longer. While in the air, press B again and Erik will activate his rocket boots giving him an extra boost to hurdle large distances or knock out weak ceilings.
Swimming: Erik is the ONLY character that can swim. While in the water, press B and Erik will swim in the direction he is facing.
Headbutt: By pressing Y, Erik will begin to charge (Head first!) in the direction he is facing. Use this to ram any enemies who get in his way and to break any loose walls.

Interplay Productions
NAME: Baleog the Fierce

AGE: 26

HEIGHT: 6'0"

WEIGHT: 220 lbs

ABILITIES:

Energy Saber: Pressing B will make Baleog swing his energy saber with great vengeance and furious anger upon any bad guy he happens to hit with it.

Bionic Arm: Baleog can activate his Bionic arm by pressing Y and the direction on the Control Pad you want his bionic arm to go to. He can use his bionic arm to punch out baddies, knock out target buttons, get items, and grab jewels. Although Baleog can't jump, he can use his bionic arm to swing over a chasm if there is a jewel within reach. When Baleog has a grip on a jewel, the Control Pad will control the speed of his swing and how long his arm extends. Press LEFT and RIGHT on the Control Pad to control the speed of his swing. Press UP and DOWN on the Control Pad to extend or retract his arm. To release his grip on the jewel, press Y again.
NAME: Olaf the Stout

AGE: 23

HEIGHT: 6'2"

WEIGHT: 320 lbs

ABILITIES:
Shield: By pressing B, Olaf can raise his shield above his head or hold it in front of himself. When lowered, it provides protection in the direction Olaf is facing. When raised it can a) provide protection from dangers above, b) will let other characters stand on top of it, c) allow him to glide down during a fall instead of plummeting to the ground.
Fart: Olaf can emit a thunderous blast from the nether region by pressing Y. This can destroy unstable floors, give Olaf an extra lift while gliding, annoys Baleog, nauseates Fang, and generally disgusts any parents watching over your shoulder.
Dwarfin: By pushing down, Olaf will use his Titanium Dwarfing shield to become very small. This allows him to fit in some of the most narrowest places that none of the other Vikings can fit in. Push up to return Olaf to his normal round size.

Interplay Productions
Fang the Werewolf

NAME: Fang the Werewolf

AGE: 24

HEIGHT: 5'8"

WEIGHT: 260

ABILITIES:
Jumping: Fang can leap into the air by pressing B. If he leaps upon a wall, he will automatically cling to it. Be careful though, Fang is a pretty big guy and he tends to slowly slide down walls he has clung to. By pressing B while being clung to a wall, he will leap into the air again. (Hint: If two walls are close enough, Fang can climb the walls by jumping back and forth between the two.)
Claws: By pressing Y, Fang will use his razor sharp claws to rip his opponent apart.
Scorch the Dragon

NAME: Scorch the Dragon

AGE: 99

HEIGHT: 6'3"

WEIGHT: 285

ABILITIES:
Jumping: Pressing B will make Scorch leap into the air.
Flying: While in the air after a jump, Scorch can majestically flap his wings to fly up in the air by pressing B again. Keep pressing B again and again to have him fly higher, though he can only flap his wings so much before he needs to land and rest. (Hint: Try to master how often to press the B button to get Scorch to fly as high as he can)
Gliding: While in the air, hold down B and instead of diving into the ground, he will use his wings to glide.
Fire Breathing: Press the Y button to make Scorch unleash a blazing ball of fire which can torch his enemies into ashes. If Scorch breathes while he is in the air, he will glide for a little while so that he doesn’t crash into the ground.

Thor’s Hints

I AM THE MIGHTY THOR! IN MY DAY AS A VIKING, I NEVER NEEDED ANY OTHER VIKINGS TO HELP ME CONQUER SUCH PITIFUL LEVELS! I NEVER EVER GOT HIT AND NEVER NEEDED MORE THAN ONE TRY TO FIGURE OUT SUCH SIMPLE PUZZLES. AND YOU KNOW WHAT... WE LIKED IT!!! NEVERTHELESS, THESE NEW LADS MIGHT NEED SOME ADVICE.

1. This new group of Vikings is a little on the SLOW side when it comes to brains. Take your time and think things out. A rushed Viking usually means a dead Viking.

2. Bah! Who needs teamwork! Well, I’ve got to admit, these lads work BEST as a team so remember that!

3. I would never even THINK of eating while in the middle of a level, but these guys don’t look like they are in the same fighting condition I was in when I was their age. Be sure to stock up on food before any of the lads enter battle. Just in case they get hit a few times (perish the thought!) they have something to give them a boost.

4. I don’t know about these lads. I could do everything these guys can do and a lot more! But that’s besides the point. Try to keep these guys together. That way, you can use any of their abilities at a moment’s notice.

5. Now I may seem like the strict Viking but always remember, you’re doing this to have FUN! If for some reason you get frustrated with these pitiful puzzles, play around and experiment. Who knows, the boys might get lucky and find the answer to get past the puzzle.
